ABOUT US

Founded in **2003**, Graham Heath began its manufacturing journey and expanded to larger premises in **Wrenbury** by 2007 as the business flourished. Today, we operate four fabrication shops on our Wrenbury site and proudly employ over **50 dedicated staff members**.

With a rich family heritage, we possess an in-depth understanding of the farming industry, having provided **British-made steel frame buildings** to the **Agricultural, Industrial, and Equestrian** sectors for more than 20 years. Our skilled and professional team has established a **reputable business** from the ground up, founded on our **expertise, commitment to quality**, and exceptional customer satisfaction and service. We specialise in the **design, manufacture**, and supply of a **diverse range of agricultural, industrial, and equestrian steel frame buildings**.

Whether you require an **'off the shelf'** design or a custom build tailored to **your specific needs**, our talented and **experienced design** and build team **collaborates with you** to ensure that you **receive precisely what you envision**.

Graham
OUR FOUNDER

FROM START TO FINISH

Free Quote Within 24 Hours: An estimator provides a quote and updates during the process.

Foundations: The team manages footings and groundworks on-site.

Structural Design: A CAD Draughtsperson uses Tekla, Strucad, and AutoCAD to create custom designs and planning drawings.

Manufacturing: Buildings are manufactured at the Cheshire site by skilled fabricators.

Construction and Erection: Delivery is available across the UK, with an experienced team for assembly or the option for self-erection.

With **21 years of experience**, the company handles projects **from simple workshops to complex superstructures**, offering complete freedom.

REVIEW'S

"We were very pleased with the service received from Graham Heath Construction. It was very efficient throughout and from planning approval for the barn to completion was only 14 weeks"

Sue Needle

"A very pleased customer! I had a beautiful barn installed with no compromises, done in a very timely manner. I had a few special requests that the team was especially helpful with. I would happily recommend these guys. Thanks team"

Jonathan Goodsell

"Graham Heath Construction have produced numerous buildings for our farming business in recent years. They are a pleasure to deal with and are always very competitive on price".

Ollie Raymond

UKCA APPROVED

All our buildings are UKCA Marked. We comply with all relevant UK standards & regulations.

The UKCA (UK Conformity Assessed) marking is a new UK product marking that is used for goods being placed on the market in Great Britain (England, Wales and Scotland). It covers most goods which previously required the CE marking, known as 'new approach' goods.

This allows you as a customer to compare information between manufacturers, as well as being assured that the UKCA marked products comply with all necessary performance standards. UKCA marked products ensure you're getting the very best quality product that will last.
